

## N20

## Dimensions (mm)

| Length | Width | Height | T. Height |
|--------|-------|--------|-----------|
| 232±2  | 94±2  | 162±2  | 178±2     |

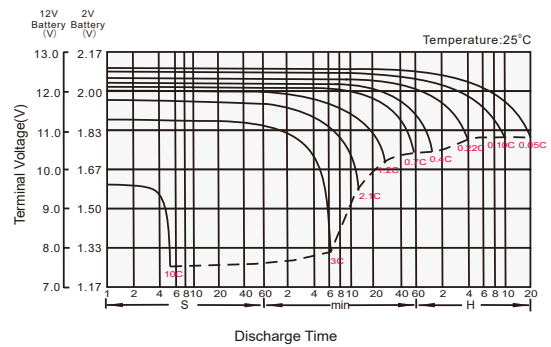

## Electrical Specification

|                                       |       |
|---------------------------------------|-------|
| Rated Capacity (20 Hour Rate @ 2.0 A) | 20 Ah |
|---------------------------------------|-------|

## Physical Specification

|                                 |                              |                   |
|---------------------------------|------------------------------|-------------------|
| Nominal Voltage                 |                              | 12 V              |
| Nominal Capacity (20 Hour Rate) |                              | 20 Ah             |
| Dimension                       | Length                       | 232±2mm           |
|                                 | Width                        | 94 ±2 mm          |
|                                 | Container Height             | 162± 2mm          |
|                                 | Total Height (With Terminal) | 178±2 mm          |
| Weight (approximate)            |                              | 4.1 Kg            |
| Acid                            |                              | 1.25 g/cm³ (25°C) |
| Cell Layout                     |                              | 0                 |
| Hold Down                       |                              | Not Available     |
| Case                            |                              | PP - Natural      |
| Cover                           |                              | PP - Red          |
| Handle                          |                              | PP - White        |
